

# DID YOU KNOW 5G IS PROPOSED FOR YOUR AREA?

- Mobile phone tower radiation is associated with a long list of health effects including insomnia, headaches, dizziness, fatigue, nose bleeds, rapid heart rate and childhood leukemia.
- Mobile phone radiation is known to activate Epstein-Barr virus\*.
- 5G includes 700MHz, 850MHz, 900MHz, 1.8GHz, 2.1GHz, 2.3GHz, 2.6GHz, 3.5GHz, 26GHz and 60GHz. At 60GHz, the oxygen molecules present will absorb 98% of the energy transmitted, potentially rendering the oxygen unstable\*.
- The World Health Organisation have known since 1981 that the frequency band 60-120GHz activates dormant viruses (View Environmental Health Criteria 16 WHO 1981\*).
- 60GHz is the new public WiFi frequency and Telco carriers do not need to apply for a license to use it.

## WHAT CAN YOU DO?

- Join us at [www.no5gparty.org.au](http://www.no5gparty.org.au). Members have the option of joining our informative monthly meetings.
- Write to the carrier to withdraw your consent to being irradiated from the facility you are concerned about. Members can access the Withdrawal of Consent Notice prepared by electromagnetic radiation legal expert and Party President, Barrister Raymond Broomhall.
- To identify the proposed and existing cell facilities in your area and view the respective Environmental Electromagnetic Energy reports, visit [www.rfnsa.com.au](http://www.rfnsa.com.au) and follow the prompts.
- For information on objecting to a tower visit <https://seen.org.au/resources/solution-checklists>
